Circularity for the mitigation and the prevention of food waste

Chiara Nobili, ENEA

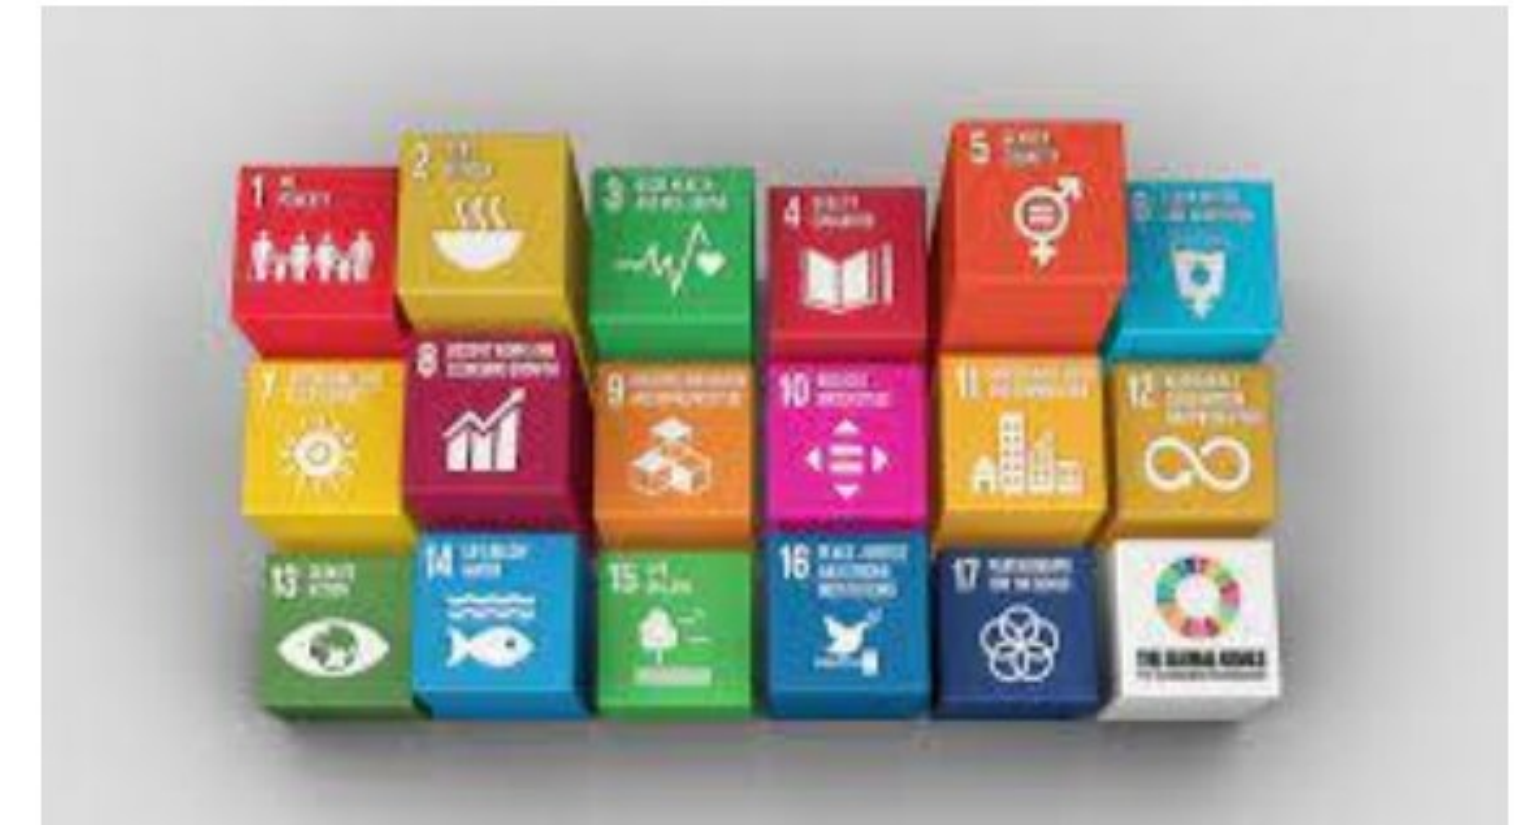

**Coordinator of AGRIFOOD working group in the framework of the Italian
Circular Economy Stakeholders Platform - ICESP**

Systemic contradictions in the current Food System that delay its reorientation toward SDGs

- ✓ Low sustainability and resilience of agricultural systems
- ✓ Coexistence in place and time of food waste and hunger
- ✓ Malnutrition

The bio economy as a systemic approach for circular transformation

FOOD WASTE

Where it is generated?

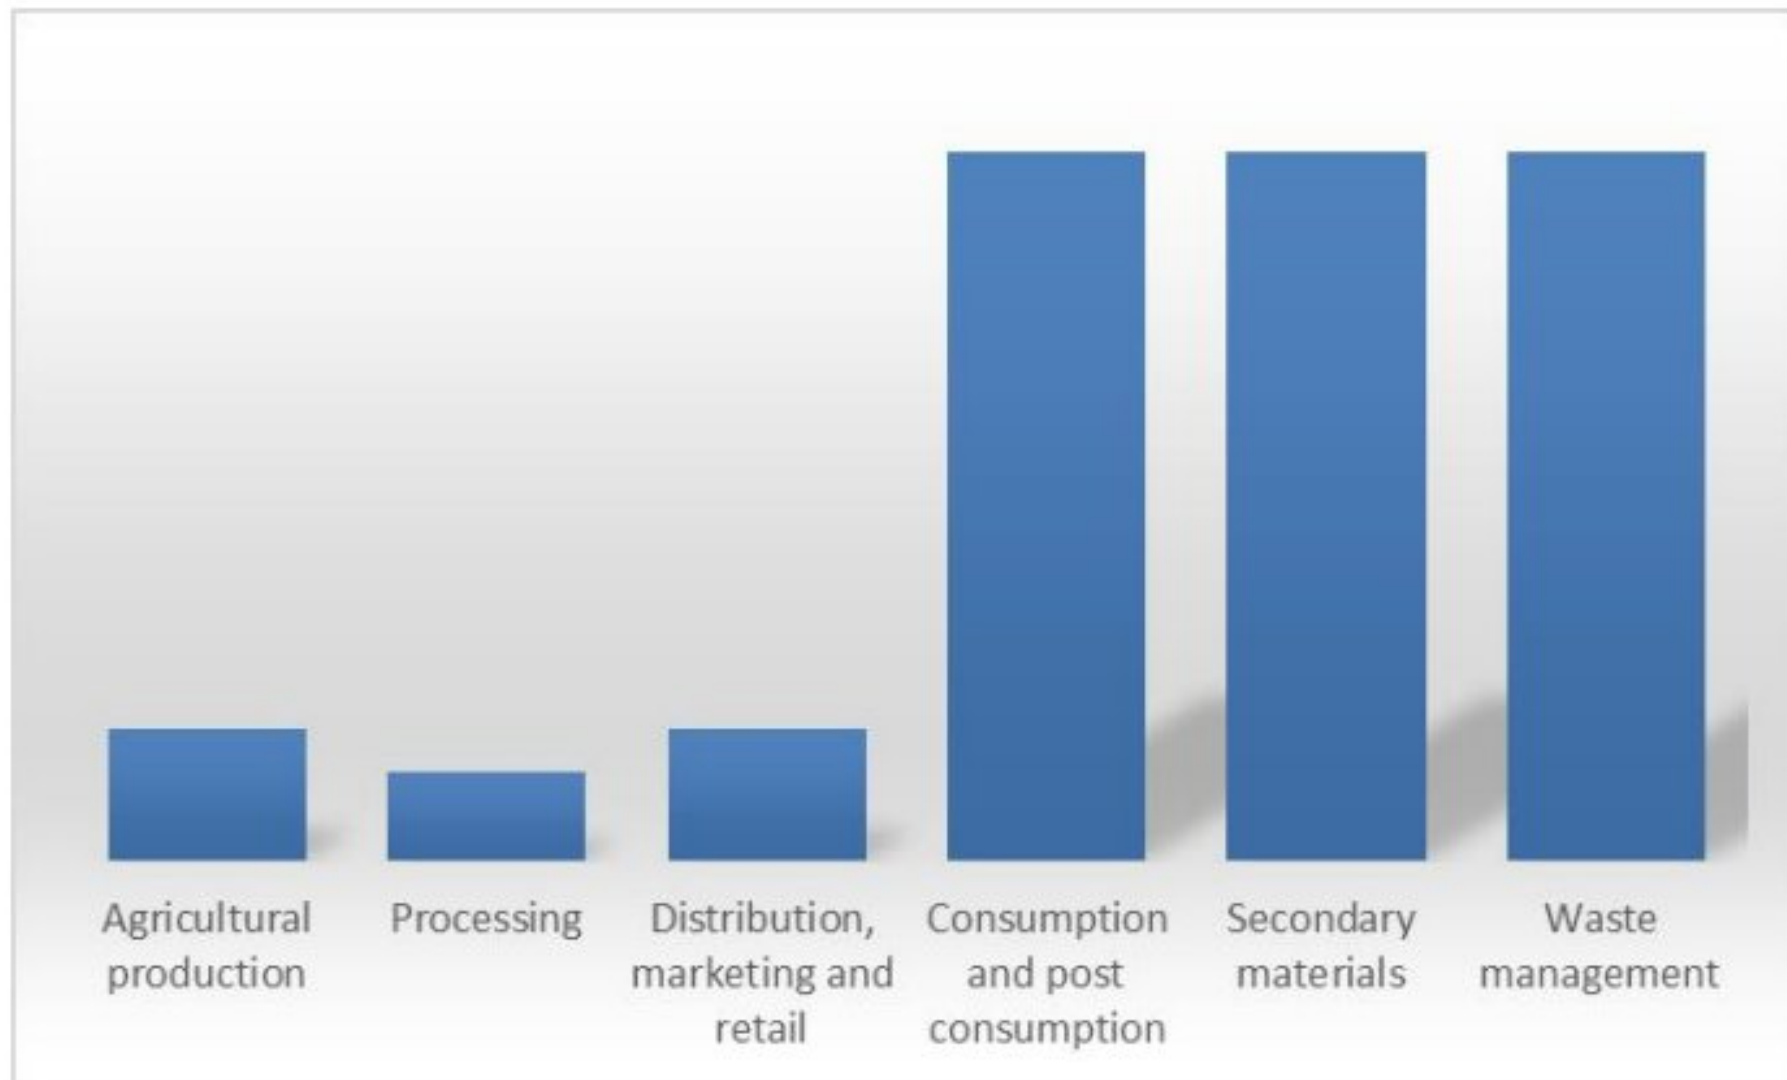

Solutions/actions

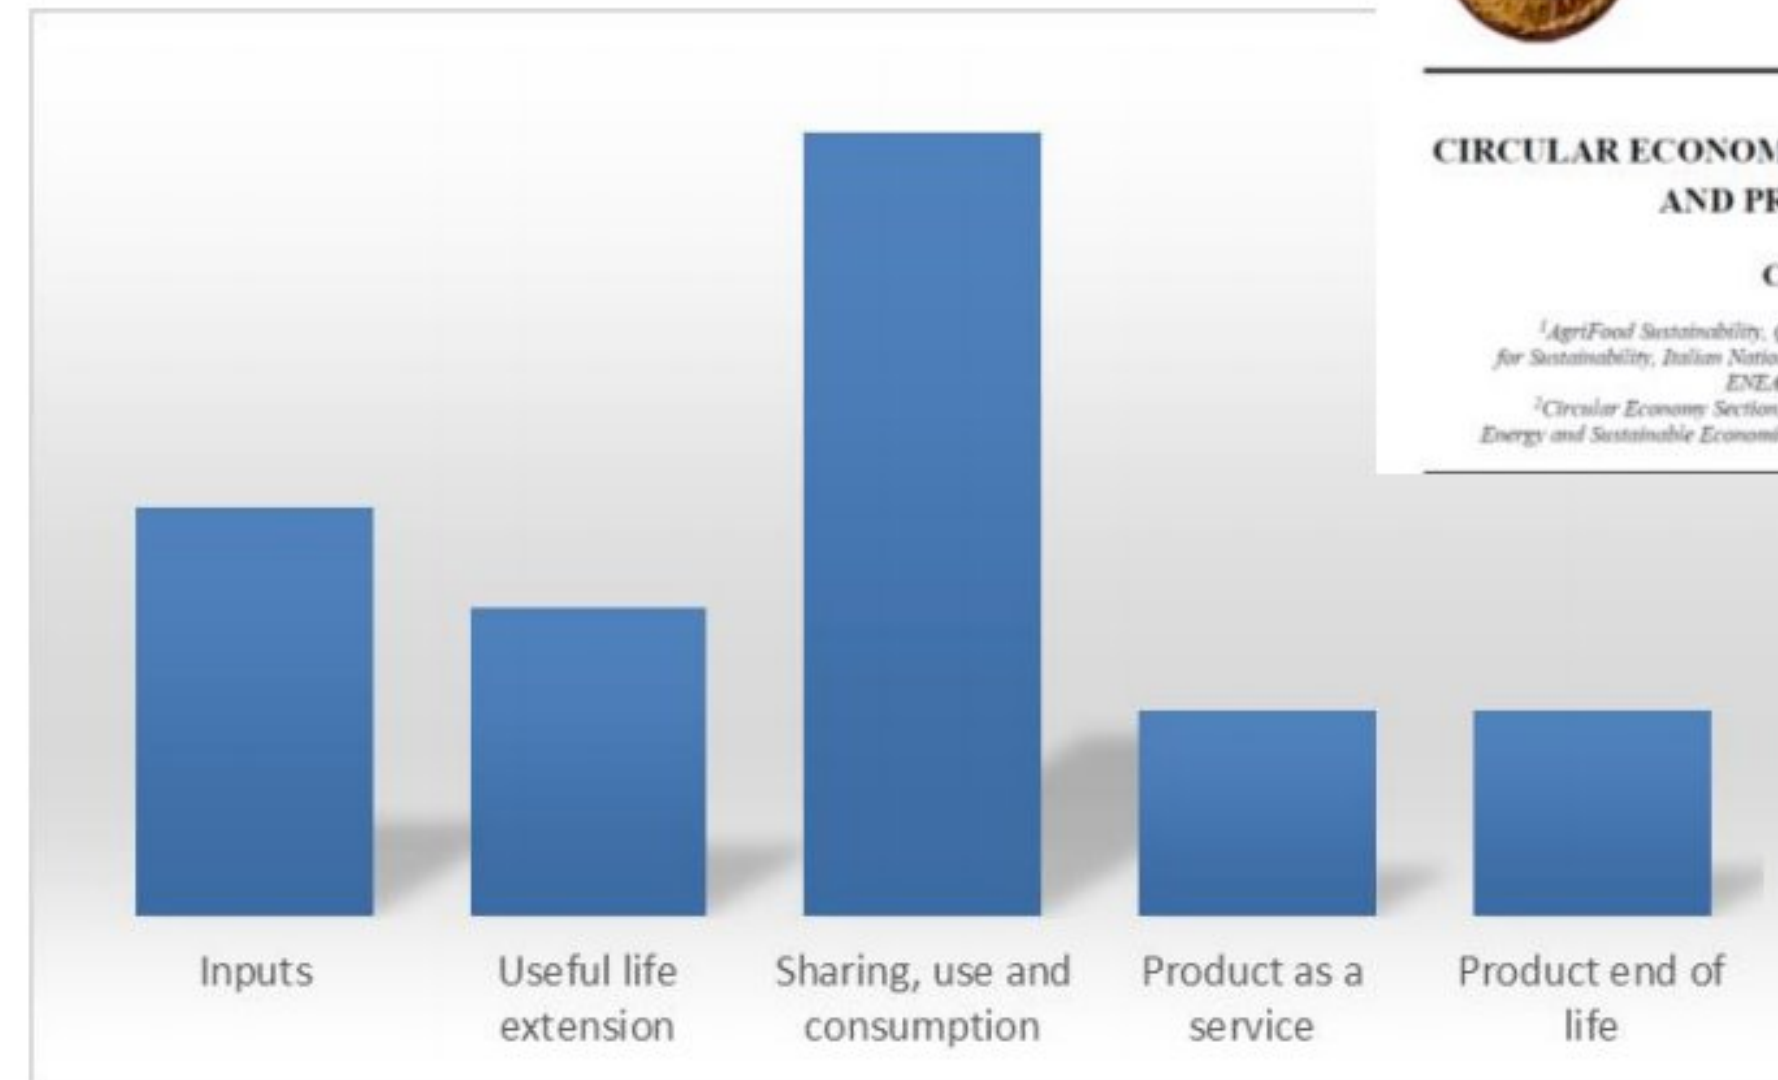

Istruments

platforms, task forces, good practices, start-ups/associations/charities, projects

Circular economy good practices as instruments to counteract food waste

Frequency distribution of CEGPs in food system phases

Frequency of the distribution of CEGPs in the circularity pillars
